SKILLS

- **Languages:** Python,C,HTML,CSS,Sql
- **Technologies:** DBMS,Python,Web automation
- **Databases/Tools :** MySQL, GitHub,VSCode
- **SoftS kills:** Problem solving, Team collaboration, Deep Curiosity, Adaptability

Login&Authentication System| GitHub

Feb 2026 - Mar 2026

- Developed a secure web-based login system integrating GitHub OAuth authentication for seamless usersign-in.
- Implemented OAuth authorization flow to authenticate users through their GitHub accounts without storing GitHub passwords.
- Designed responsive login and authentication interfaces using HTML5, CSS3, and JavaScript.
- Integrated REST APIs to retrieve authenticated GitHub user information and manage login sessions.
- Used Git and GitHub for version control, source-code management, and project collaboration.
- **TechStack:** HTML5, CSS3, JavaScript, Node.js, REST APIs, GitHub OAuth

Surface Quality & Cleanliness Detector | Computer Vision | GitHub

March 2026 - April 2026

- Developed an AI-powered computer vision system to analyze table surfaces from images and real-time videofeeds,detecting visible impurities, spills, crumbs, and clutter.
- Implemented adaptive thresholding and contour analysis using OpenCV and NumPy to identify surface anomalies and calculate a cleanliness percentage.
- Built a classification pipeline to categorize surfaces into cleanliness states such as Clean, Slightly Cluttered, and Dirty, enabling automated hygiene assessment.
- **TechStack:** Python, OpenCV, NumPy, Flask, HTML5, CSS3

TRAINING

Community Development Programme (CDP) | Lovely Professional University | Certificate

Jun 2026 - Jul 2026

EnvironmentalAwareness Initiative— Times ofIndia TCTC2026

- Conducted environmental awareness sessions at local schools as part of the Times of India TCTC 2026 initiative, engaging students on sustainability practices.
- Registered 250+ students on the official TCTC platform (toitctc.com), managing outreach and data entry across multiple school visits.
- Built a Selenium-based automation script to streamline the student registration workflow, reducing manual entry effort and errors.
- Completed the mandatory CDP requirement independently, coordinating logistics, school permissions, and session scheduling end-to-end.

CERTIFICATES

• Introduction to Artificial Intelligence Infosys Springboard	Sep 2025
• Inventory Management HP-Life	Sep 2025
• Computer Networking and communication Linkedin Learning	Mar 2026

ACHIEVEMENTS

- Participated in a coding hackathon and made it to top 20 with web based distraction management prototype.
- Solved more than 50 coding problems on online coding Platforms.

EDUCATION

• LovelyProfessional University <i>Bachelor of Technology - Computer Science and Engineering;</i> CGPA: 8.56	Phagwara, Punjab Aug2025 - Present
• Holy Mission School <i>Class X II - Higher Secondary Education; Percentage: 71%</i>	Darbhanga,Bihar May2023 - Mar2024
• Holy Mission School <i>Class X – Secondary Education; Percentage: 88%</i>	Darbhanga,Bihar May2021 - Mar2022
